

SLCBL Series PV Array Cables & Connectors

Solarline MC4 & TYCO Solarlok Styles

MC4 Styles; ...feature the newer, snap-together Multi-Contact hard plastic connectors on each end. Use these output cables between PV arrays with Multi-Contact cable outputs. These cables have a male connector on one end and a female connector on the other end.

TYCO SolarLok Styles; ...These cables have Tyco SolarLok connectors to match the connectors on some SCHOTT, Day4Energy, GE and CSI Solar modules. These cables have a neutral male at one end and a negative female at the other end.
